## **SPECIAL EDITION**

### **Written Declaration of MEPs for “DYS” - children**

In the last issue of **EDA NEWS** (Vol.13 No. 5 December 2007 **page 20**) **Michael Kalmár**, the EDA President, asked EDA Members to contact the **Members of the European Parliament (MEP’s)** in their countries who signed the **Written Declaration 64/2007** for “DYS” – children.

The aim is to follow-up the MEP’s declared interest in helping “DYS”-children **which includes our dyslexic children**. The MEP’s should be asked to press the **European Commission** and **European Parliament**:

- 1. to draw up a charter** for children, adolescents and adults with “dys” differences guaranteeing the right to access and to receive appropriate identification, support and opportunity to achieve their full potential in education, training, employment and all aspects of life,
- 2. to encourage the recognition** of "dys"-type problems as a manifestation of differences, which challenges the people affected in navigating through life in a largely non-“dys” friendly world. Also, the fact that there is no relationship between a person's level of intelligence, individual effort, socio-economic position and the presence of a “dys” difference.

  - taking timely steps to spot, screen, systematically diagnose and treat these differences from an early stage,
  - designing effective inclusive, multidisciplinary pedagogical, further educational and social structures for young children, adolescents and adults to achieve their full potential in education, training, employment and all aspects of life, to promote and encourage the creation of a European multidisciplinary network on specific learning differences including the democratically elected representatives of the people with these differences, and by this means to collect and study information and promote the coordination of cross-border actions, as well as institutional dialogue.
